

Printer Units

Printer Unit with Deep Drawer

The "25" unit has a deep drawer at the top for storage of continuous-feed printer forms, and a waste receptacle below with a hinged door. It is for use directly below a printer that sits on the counter top. For printers below the counter, the "26" unit utilizes a slide-out printer shelf that is adjustable to accommodate different size printers. The "27" unit adds a standard drawer at the bottom.

Catalog #	Width	Approx. Shpg. Wt.
25-24RH	24"	104
25-24LH	24"	104
